

## **Childhood & Family Ministry Summit Digital Pass FAQ**

### **What is the Childhood & Family Ministry Summit digital pass?**

The digital pass is a library of videos and handouts from our Summit keynote speaker and breakout leaders. These videos, either filmed beforehand or at the Summit, will provide all the information that you would get in person.

### **Is the digital pass included in my in-person registration or do I need to register for it separately?**

The digital pass is included in every in-person registration. You will receive a QR code and password when you attend the Summit that will give you access to the digital pass.

### **When will the digital pass be available?**

It is our goal to have some of the content available on August 13 to coincide with the in-person Summit. Because we are filming some sessions, including the keynotes, on site, not all the content will be available right away. We will have all the sessions available by the end of September.

### **Do I have to watch the digital pass on August 13-14?**

Because the digital pass is a video library instead of a live stream, you have the freedom to watch it whenever is convenient for you. You can watch some of the videos on August 13-14, but since not all the content will be available until later, you can access it again later to watch more.

### **Will all of the in-person content be included in the digital pass?**

Yes! We will have videos and handouts from each session. The only thing you'll miss in the digital pass is the discussion. You could, however, watch the videos with others on your team and discuss the sessions together.

### **How do I access the digital pass?**

If you attend the Childhood & Family Ministry Summit in person, you will receive a card with a QR code and password that will give you access. If you are not attending the Summit in person, you will receive an email on August 13 with a link and password that will give you access.

### **How do I use the digital pass?**

The digital pass gives you access to a full library of Childhood & Family Ministry Summit sessions. That means that if you miss a session in person, you can watch it later through the digital pass. You can also use the videos for training for your leaders, either by watching them together in person, or by sending them the videos and handouts.

### **Can I download the videos, or do I need to watch them online?**

All the videos will be on Vimeo, so you have the option of watching them online or downloading them to watch later. You won't need a Vimeo account to watch or download them.

### **Can I share the digital pass?**

You are welcome to share the digital pass with others in your church or weekday program, but we ask that you not share it outside of your church.

### **I have several people at my church/weekday program who will be using the digital pass. Do I need to register for more than one?**

You only need to register for one digital pass per church/weekday program.

### **Can the digital pass be used for weekday training hours?**

Yes! If you watch a video and complete the handout, you can receive one hour of training credit. We will have a certificate available on the website that can be complete for training hours. For even more training benefit, you might want to watch the videos with others so that you can discuss the content.

### **How long will the digital pass be available?**

We'll leave the videos and handouts online for one year, so be sure to download them before August 2022.
