

# MAKE AN IMPACT THROUGH RIVER MINISTRY

## COMMUNITY GARDEN STARTER KIT

Garden ministry opens doors to develop relationships and opportunities to evangelize with those in the community. You or your group can help plant community gardens through providing seeds for our River Ministry Missionaries to distribute. They are asking for churches or individuals to send garden seeds to our office before March 15. This will help them get seeds in the hands of our border churches to distribute in time for Spring planting.

A \$25 donation of seeds can provide enough for one Community Garden!
