

MAKE AN IMPACT THROUGH RIVER MINISTRY

HYGIENE KITS

Hygiene kits are a simple yet effective way to do outreach on the border. Families that come to our free health clinics or through immigration centers receive these kits for free. This is a great missions project for a youth group, life group, or WMU group.

The material should be put in a clear, quart-size or smaller, Ziploc bag so the contents are clearly seen. Many of the kits are used in prison ministry, and the officials need to see what is inside each kit, or used in Mexico, so need to be quart-sized bags or smaller to be crossed. Please contact River Ministry if interested in participating in this project.
